FAO FISHERIES DIVISION BIOLOGY BRANCH DOCUMENTS

Three series of documents are issued by the Biology Branch. These are not official FAO publications; they are given a restricted external distribution and this fact should be indicated if they are cited. Most of the documents in these series are prepared as working papers for meetings, or are summaries of information for the use of member governments, organizations, and specialists concerned. The series are:

DOCUMENTS DE LA SOUS-DIVISION DE LA BIOLOGIE DIVISION DES PÊCHES DE LA FAO

La Sous-division de la biologie publie trois séries de documents; ceux-ci ne figurent pas parmi les publications officielles de la FAO, mais font seulement l'objet d'une distribution extérieure restreinte, aussi convient-il de le préciser lorsque ces documents sont cités. Il s'agit le plus souvent de documents de travail préparés pour les réunions, ou de résumés d'information à l'intention des gouvernements des pays membres, ainsi que des organisations et spécialistes intéressés. Ces séries sont les suivantes:

DOCUMENTOS DE LA SUBDIRECCION DE BIOLOGIA DIRECCION DE PESCA DE LA FAO

La Subdirección de Biología publica tres series de documentos que no constituyen publicaciones oficiales de la FAO, siendo objeto de distribución externa limitada, circunstancia que debe indicarse, caso de ser citados. La mayoría de los títulos que figuran en dichas series son documentos de trabajo preparados para reuniones o resúmenes de información destinados a los gobiernos de los estados miembros, organizaciones y especialistas interesados. Las series son las siguientes:

FAO Fisheries Biology Report **FB/R(No.)**

FAO Fisheries Biology Synopsis **FB/S(No.)**

Special groups of synopses are identified by the following symbols:

CART	Information concerning the living aquatic resources of certain countries and regions.
SAST	Data concerning certain species and fish stocks.
MAST	Methods and subjects synopses.
OT	Oceanography synopses.
IT	Limnological synopses.

Des catégories spéciales d'études synoptiques sont identifiées à l'aide des symboles suivants:

CART	Renseignements sur les ressources aquatiques vivantes de certains pays et régions.
SAST	Données sur certaines espèces et populations de poissons.
MAST	Etudes synoptiques sur des méthodes et des sujets particuliers.
OT	Etudes océanographiques.
IT	Etudes limnologiques.

Los grupos especiales de sinopsis se distinguen con las siguientes siglas:

CART	Información sobre los recursos acuáticos vivos de algunos países y regiones.
SAST	Datos relativos a ciertas especies y poblaciones.
MAST	Sinopsis sobre métodos y materias.
OT	Sinopsis sobre oceanografía.
IT	Sinopsis sobre limnología.

FAO Fisheries Biology Technical Paper **FB/T(No.)**

Special groups of Technical Papers are identified by the symbols:

RE	Indexed lists of names and addresses of experts drawn from the Register of Experts maintained by the Biology Branch.
CB	The " World List of Periodicals for Aquatic Sciences and Fisheries, " Meetings and Activities Sections from, and the Handbooks for, the " Current Bibliography for Aquatic Sciences and Fisheries, " special bibliographies and technical papers concerning documentation and bibliographic problems.

Numbers following the symbols are for classifying the document, using the codes of the indexes to the "Current Bibliography for Aquatic Sciences and Fisheries."

Some documents may carry other identification numbers, if, for example, they have been contributed to a meeting for which papers have been marked according to another system; in requesting copies it is sufficient, however, to quote the " FB " number given at the top right-hand corner of the title page.

Des catégories spéciales de documents techniques sont identifiées à l'aide des symboles suivants:

RE	Listes indexées des noms et adresses d'experts tirés du Registre des Experts tenu à jour par la Sous-division de la biologie.
CB	Le « Répertoire mondial de périodiques concernant les sciences aquatiques et la pêche », les sections des Réunions et Activités, tirées de la « Current Bibliography for Aquatic Sciences and Fisheries», le manuel de cette bibliographie ainsi que des bibliographies particulières et des articles techniques sur les problèmes de documentation et de bibliographie.

Les chiffres qui accompagnent les symboles sont destinés à la classification du document au moyen des codes d'indexation de la « Current Bibliography for Aquatic Sciences and Fisheries ».

Il arrive que certains documents portent d'autres numéros d'identification, comme c'est le cas s'ils ont été préparés pour une réunion dont les documents ont été marqués à l'aide d'un autre système; mais lorsque l'on demande des copies de ces documents il suffit de mentionner le numéro « FB » figurant en haut et à droite de la page de couverture.

Para distinguir los grupos especiales de documentos técnicos se emplean los símbolos siguientes:

RE	Listas clasificadas de nombres y direcciones de expertos tomados del Registro de Expertos que se lleva en la Subdirección de Biología.
CB	La « Lista mundial de publicaciones periódicas referente a las ciencias acuáticas y a la pesca », las Secciones de Reuniones y Actividades de la « Current Bibliography for Aquatic Sciences and Fisheries », el Manual para su manejo, bibliografías especiales y los trabajos técnicos sobre problemas de documentación y bibliografía.

Los números de que van seguidos los símbolos sirven para clasificar el documento, empleándose las claves de los índices de la « Current Bibliography for Aquatic Sciences and Fisheries ».

Algunos documentos pueden llevar otros números de identificación si, por ejemplo, son contribuciones a una reunión cuya documentación haya sido marcada con arreglo a otros sistemas. Sin embargo, para solicitar ejemplares basta mencionar el número « FB » que figura en la parte superior derecha de la portada.

PURPOSE OF THIS SERIES

This is one of a group of Technical Papers (see inside front cover) giving information concerning bibliographic and intelligence services for aquatic sciences and fisheries. Further information and extra copies can be obtained from:

BUT DE CETTE SERIE

Elle fait partie d'un groupe de Documents Techniques (voir au verso de la page de couverture) donnant des informations sur les services de bibliographie et des renseignements des sciences aquatiques et des pêches. Pour obtenir des renseignements complémentaires et des exemplaires supplémentaires prière de s'adresser à:

OBJETO DE ESTA SERIE

Forma parte de un grupo de Documentos Técnicos (vease la contraportada anterior) con datos sobre los servicios bibliográficos e informativos de las ciencias acuáticas y la pesca. Para obtener mayor información o más ejemplares, dirigirse a:

Research Programs Section
Biology Branch, Fisheries Division
FAO, Rome, Italy.

PREPARATION AND ARRANGEMENT OF THIS DOCUMENT

The document lists periodicals (including serials, monograph series and series of meetings documents) the contents of which have been found to be relevant, completely or partially, regularly or from time to time, to aquatic sciences and fisheries, and references from which have therefore been entered in the "Current Bibliography for Aquatic Sciences and Fisheries"(CBASF). It includes also all periodicals which are searched for "World Fisheries Abstracts", as well as for other abstracting journals in these fields as far as these are known to FAO. It supersedes the "World List of Periodicals for Fisheries Science" issued as mimeographed document FAO/57/5/3258 in May 1957. It also supplements FAO Fish.Biol.Tech.Pap. (9), 1961,"Current Bibliography for Aquatic Sciences and Fisheries - List of Periodicals Searched Regularly".

Volume 1 lists, in alphabetical order, the titles of periodicals,followed in each case by the short form of the title according to the rules of the "World List of Scientific Periodicals", 3rd Edition, and in conformity with the principles of the International Code for the Abbreviation of Titles of Periodicals (ISO/R4). Abbreviations depart from those of the "World List" only where it is known that there were errors in that edition or that a modified practice will be followed for the 4th edition, now in preparation; in particular, the names of Soviet publications are here given in the original language, transliterated according to the system followed in the CBASF. Short titles of periodicals which appear in complete translation, or as translated abstracts,or which have titles in languages other than the original, are derived from the title of the original periodical and, where appropriate, followed by language symbols and the abbreviation "Transl." or "Abstr.". In the entry for the original title cross-references to translations are indicated by "vide".

Cross-references between titles of periodicals appearing simultaneously in several language versions are also indicated by "vide"; in these cases the short form of the title is derived from the language selected as having priority by the rules used in CBASF, and is followed by the language symbol.

Periodicals which it is believed are still being published ("current" periodicals) are listed in the first part of the volume; each of them can be identified by a five digit number - the first three digits referring to the page number, the last two to the serial number of that page. Periodicals no longer published (considered "extinct" as at 1st January 1962) are listed in the second part of the volume, with page numbers prefixed "X". They are each identified by the symbol "X" and a four digit number.

Cross-reference between current and extinct titles of what is essentially the same periodical, or where one periodical has replaced another, are indicated by "ex" and "vide" respectively. Where two (or more) periodicals, now extinct, have been merged to form another, or where one has assimilated another, the fact is indicated in the extinct periodicals section by "amalgamated with X ....to form ....", and in the current periodicals section by "amalgamating X ....and X ....". Other kinds of relations between various titles are indicated by similar appropriate phrases,which usually follow closely the notices of such relation printed on the periodicals concerned.

Volume 2 will give for each periodical its frequency, country and languages (including summaries) of publication, with indication of whether it is regularly scrutinized for reference in CBASF,and its coverage by various abstracting periodicals and bibliographic lists.

Volume 3 will give for each periodical the name and address of the publisher, its availability and other bibliographic information thought to be useful to fisheries workers, and to librarians and other persons concerned with documentation in this subject field.

This list was prepared in the Research Programs Section of FAO Fisheries Biology Branch by Mrs. P. Iacoacci. Assistance in compiling it was given by many persons and institutions; acknowledgements are particularly due to the following for their suggestions and comments on the original draft: Dr. S. Jones (Chief Research Officer, Mandapam Camp, India), Prof. L. Zenkevitch (Akademiia Nauk, Moskva, U.S.S.R.), FAO Regional Fisheries Officers, and the librarians of: the Fisheries Laboratory, Lowestoft, England: Freshwater Biological Association, England; the Marine Biological Association of the U.K., Plymouth, England; Rijkinstituut voor Visserij-onderzoek, Ijmuiden, Netherlands; Havforskningsinstitutet, Helsinki, Finland; University of Toronto, Canada; Ontario Fisheries Laboratory, Canada; Marine Laboratory, University of Miami, Florida, U.S.A.; Fisheries-Oceanography Library, School of Fisheries, University of Washington, U.S.A.; Fiskeridirektoratets Bibliotek, Bergen, Norway.

Information about errors, omissions, changes of titles, new periodicals, cessation of publication, and other changes in, for example, frequency of issue, languages and names and addresses of publishers, will be welcomed. Comments should be addressed to Chief, Research Programs Section, Biology Branch, Fisheries Division, FAO, Rome, Italy. Changes will be incorporated in supplementary lists, and, eventually, in replacement pages, issued from time to time within this Technical Papers series.

PREPARATION ET PRESENTATION DE CE DOCUMENT

Le présent document donne la liste des périodiques (y compris les suites, les collections de monographies et les séries de documents de réunion) dont le contenu a été jugé en rapport, en totalité ou en partie, régulièrement ou occasionnellement avec les sciences aquatiques et les pêches et dont les références ont été par conséquent données dans la "Current Bibliography for Aquatic Sciences and Fisheries"(CBASF). Il comprend également tous les périodiques qui sont dépouillés pour les "Résumés analytiques des pêches mondiales"ainsi que pour les autres journaux analytiques intéressant ce domaine et dont l'existence est connue par la FAO. Ce document remplace la "World List of Periodicals for Fisheries Science" publiée en ronéotype sous la référence FAO/57/5/3258 en mai 1957. Il complète également le document FAO Fish.Biol.Tech.Pap., (9), 1961 "Current Bibliography for Aquatic Sciences and Fisheries - List of Periodicals Searched Regularly".

Le Volume 1 donne, par ordre alphabétique, les titres des périodiques suivis chacun du titre abrégé selon les règles de la "World List of Scientific Periodicals" 3ème édition, et les principes du Code international d'abréviations des titres de périodiques (ISO/R4). Les abréviations ne diffèrent de celles de la "World List" que pour corriger les erreurs relevées dans cette édition ou se conformer à la nouvelle méthode qui sera suivie dans la 4ème édition actuellement en préparation; en particulier, les noms des publications soviétiques sont donnés ici dans la langue originale, avec la translitération conforme au système adopté dans la CBASF. Les titres abrégés des périodiques complètement traduits, ou en résumés traduits, ou dont les titres sont énoncés dans des langues autres que la langue originale, sont dérivés du titre du périodique original et suivis eventuellement des symboles de langue et de l'abréviation "Transl." ou "Abstr.".

LIBRARY
BUREAU OF COMMERCIAL FISHERIES
U. S. FISH AND WILDLIFE SERVICE
P. O. BOX 3830
HONOLULU HAWAII

Dans le titre original, des renvois aux traductions sont indiqués par le mot "vide". Les renvois aux titres des périodiques paraissant simultanément en plusieurs langues sont également indiqués par le mot "vide"; dans les cas de ce genre, la forme abrégée du titre est tirée de la langue choisie comme ayant la priorité selon les règles appliquées dans la CBASF et elle est suivie du symbole de la langue.

Les périodiques que l'on croît encore en existence (périodiques "actuels") sont répertoriés dans la première partie du volume; chacun d'eux peut être identifié par un nombre de cinq chiffres, dont les trois premiers indiquent le numéro de la page, et les deux derniers, le numéro de série affecté à ce périodique dans cette page. Les périodiques qui ne sont plus publiés (considérés comme ne paraissant plus au 1er janvier 1962) sont répertoriés dans la seconde partie du volume avec les numéros de page précédés d'un "X". Ils sont identifiés par le symbole "X" et un nombre de quatre chiffres.

Le renvoi du titre actuel au titre disparu d'un périodique qui reste essentiellement le même, ou lorsqu'un nouveau journal en remplace un autre, est indiqué par "ex", et dans le sens contraire, par "vide". Lorsque deux ou un plus grand nombre de périodiques, actuellement disparus, ont fusionné pour en former un autre, ou lorsque un périodique en a absorbé un autre, le fait est indiqué dans la section des périodiques éliminés par "amalgamated with X ....to form ...." et dans la section des périodiques actuels par "amalgamating X ....and X ....". D'autres types de rapports entre divers titres sont indiqués par des phrases appropriées de ce genre, qui suivent généralement les avis de ces relations imprimés sur les périodiques en cause.

Le volume 2 indiquera pour chaque périodique: la périodicité, le pays et les langues (y compris les résumés), s'il est dépouillé régulièrement pour la CBASF, ainsi que les périodiques de résumés analytiques et les répertoires bibliographiques dans lesquels il figure.

Le volume 3 indiquera pour chaque périodique le nom et l'adresse de l'éditeur, les conditions dans lesquelles on peut l'obtenir et autres renseignements bibliographiques jugés utiles aux chercheurs dans le domaine des pêches ainsi qu'aux bibliothécaires et autres personnes s'occupant de la documentation en cette matière.

Ce répertoire a été préparé par Mme P. Iacoacci, de la Section des programmes de recherches, Sous-division de la biologie des pêches. Un grand nombre de personnes et d'institutions l'ont aidée dans ce travail. La FAO est particulièrement reconnaissante aux personnes dont les noms suivent, pour les suggestions et observations que elles ont faites sur le projet de texte: Dr. S.Jones (Chief Research Officer, Mandapam Camp, Inde), Prof. L.Zenkevitch (Akademiia Nauk, Moskva, U.R.S.S.), les fonctionnaires régionaux des pêches de la FAO et les bibliothécaires des institutions suivantes: Fisheries Laboratory, Lowestoft, Angleterre; Freshwater Biological Association, Ambleside Angleterre; Marine Biological Association of the U.K., Plymouth, Angleterre; Rijksinstitut voor Visserij-onderzoek, Ijmuiden, Pays-Bas; Havforskningsinstitutet, Helsinki, Finlande, Université de Toronto, Canada; Laboratoire des pêches d'Ontario, Canada; Marine Laboratory, University of Miami, Florida, Etats-Unis; Fisheries-Oceanography Library, School of Fisheries, University of Washington, Etats-Unis; Fiskeridirektoratets Bibliotek, Bergen, Norvège.

La FAO sera reconnaissante des renseignements qui lui seront envoyés sur les erreurs, les omissions, les changements de titre, les nouveaux périodiques, les cessations de publication et autres changements intervenus par exemple dans la périodicité, les langues et les noms et adresses des éditeurs. Les observations doivent être adres-

sées au Chef de la Section des programmes de recherche, Sous-division de la biologie, Division des pêches, FAO, Rome, Italie. Les changements seront incorporés dans des listes supplémentaires, et, en fin de compte, dans des pages de remplacement, publiées de temps à autre dans cette série de Documents techniques.

CONTENIDO Y DISPOSICION DE ESTE DOCUMENTO

En este documento se enumeran las publicaciones periódicas (incluídas las que aparecen en forma de entregas consecutivas, series de monografías y series de documentos de reuniones), cuyo contenido se ha considerado que interesa, ya en su totalidad ya en parte, bien regularmente o bien de vez en cuando, a las ciencias acuáticas y de la pesca, y de las cuales, por tanto, se han incluído referencias en la "Current Bibliography for Aquatic Sciences and Fisheries" (CBASF). Se incluyen en él también todas las publicaciones periódicas que son examinadas para los "Extractos de la Pesca Mundial" así como también para otras publicaciones que presentan recensiones o extractos sobre tales materias y de las que la FAO tiene noticia. Sustituye a la "World List of Periodicals for Fisheries Science" publicada en ciclostilo como documento FAO/57/5/3258 en mayo de 1957. Complementa también la publicación FAO Fish.Biol.Tech.Pap. (9), 1961, "Current Bibliography for Aquatic Sciences and Fisheries - List of Periodicals Searched Regularly."

En el Volumen 1 figuran por orden alfabético los títulos de las publicaciones, seguidos en cada caso por la forma abreviada de los mismos, según las normas de la "World List of Scientific Periodicals", 3ª edición, y de conformidad con los principios del "International Code for the Abbreviation of Titles of Periodicals" (ISO/R4). Las abreviaturas se diferencian de las de la "World List" solamente cuando se sabe que en aquella edición hubo errores, o que en la 4ª edición, actualmente en preparación, se va a utilizar un criterio modificado; en particular, los nombres de las publicaciones soviéticas se dan aquí en el idioma original transliterado de acuerdo con el sistema seguido en la CBASF. Los títulos abreviados de las publicaciones periódicas que aparecen con su traducción completa o en forma extractada traducidas, o que tienen títulos en otras lenguas distintas de las originales, se derivan del título de la publicación periódica original y, según el caso, se les hace seguir de los símbolos correspondientes al idioma respectivo y de la abreviatura "Transl." o "Abstr.".

En la inscripción correspondiente al título original las referencias correspondientes a las traducciones se indican por "vide". Las referencias a otros títulos de publicaciones que aparecen simultáneamente en distintas versiones independientes se mencionan también por "vide"; en tales casos la forma abreviada del título se deriva del idioma seleccionado como preferente según las normas seguidas en la CBASF, y va seguida del símbolo correspondiente al idioma de que se trate.

Las publicaciones periódicas que se cree que siguen aparaciendo todavía (publicaciones "actuales") figuran relacionadas en la primera parte del volumen; cada una de ellas puede ser identificada por un grupo de cinco cifras, correspondiendo las tres primeras al número de la página y las dos últimas al número de orden dentro de dicha página. Las publicaciones que ya no se publican (consideradas "suprimidas" en 1º de enero de 1962) aparecen relacionadas en la segunda parte del volumen, yendo precedido el número de las páginas de la letra "X". Estas se distinguen con el símbolo "X" y con un número de cuatro cifras.

Las referencias cruzadas entre títulos actuales y suprimidos de la que puede considerarse como una misma publicación, así como en los casos en los que un periódico ha sustituido a otro, van indicadas por "ex" y "vide" respectivamente. Cuando dos (o más)

publicaciones periódicas que ya no se publican se han fundido para constituir otra nueva, o cuando una publicación ha absorbido a otra, este hecho se indica en la sección de publicaciones periódicas extinguidas con la mención: "amalgamated with X ....to form ....", y en la sección de publicaciones actuales por: "amalgamating X ....and X ....". Otras clases de relaciones entre los distintos títulos se indican por frases similares apropiadas que, en general, se ajustan a las noticias de tales relaciones que figuran en las publicaciones periódicas respectivas.

En el Volumen 2 se consignará para cada publicación su periodicidad de aparición, país e idiomas (incluídos resúmenes) de publicación, con indicación de si se examina regularmente para incluir referencias en la CBASF y cuales son las publicaciones de extractos y las listas bibliográficas que la incluyen.

En el Volumen 3 se incluirá para cada publicación el nombre y dirección del editor, forma de obtenerla y demás información bibliográfica considerada útil para los especialistas de pesca, para los bibliotecarios y para otras personas a quienes interesa la documentación en este ramo.

Esta lista ha sido preparada en la Sección de Programas de Investigación de la Subdirección de Biología Pesquera de la FAO por la Sra. P. Iacoacci. A su recopilación han prestado ayuda muchas personas y instituciones; particularmente, se debe hacer constar el debido agradecimiento a los siguientes por sus sugerencias y observaciones sobre el borrador original: Dr. S.Jones (Chief Research Officer, Mandapam Camp India), Prof.L. Zenkevitch(Akademiia Nauk, Moskva, U.R.S.S.), Oficiales Regionales de Pesca de la FAO y a los bibliotecarios de las entidades siguientes: Fisheries Laboratory, Lowestoft, Inglaterra; Freshwater Biological Association, Ambleside, Inglaterra; Marine Biological Association of the U.K., Plymouth, Inglaterra; Rijksinstituut voor Visserij-onderzoek, Ijmuiden, Paises Basos; Havforskningsinstitutet, Helsinki, Finlandia; University of Toronto, Canada; Ontario Fisheries Laboratory, Canada; Marine Laboratory, University of Miami, Florida, E.U.A.; Fisheries-Oceanography Library, School of Fisheries, University of Washington, E.U.A.; Fiskeridirektoratets Bibliotek, Bergen, Noruega.

Se agradecerá cualquier indicación respecto a errores, omisiones, cambios de títulos, nuevas publicaciones, cese de la publicación y otros cambios, por ejemplo, en la periodicidad de publicación, idiomas, y nombres y direcciones de las casas editoras. Tales observaciones deberán dirigirse al Jefe de la Sección de Programas de Investigación, Subdirección de Biología, Dirección de Pesca, FAO, Roma, Italia. Los cambios serán incorporados en listas complementarias y, en su caso, en páginas que sustituyan a las existentes, publicadas de vez en cuando en esta serie de Technical Papers.
